The Range Road RR607 is a dependable utility trailer that's built to last. It features a hydraulic dump box that makes it perfect for transporting dirt, rocks, and firewood. You can easily tow it behind your ATV/UTV or tractor. Making it ideal for use around the ranch, farm, or homestead.

Heavy Duty Construction

This trailer features a galvanized steel dump box that is reinforced with powder-coated steel support ribs for added strength and rigidity. The hydraulic cylinder and 12-volt hydraulic pump are situated underneath the tub and are mounted on a specially designed frame. In addition, there is a powder-coated tongue mounted battery box (battery not included). The entire chassis is also powder-coated to prevent corrosion.

Designed For Independent Functionality

The trailer tongue is fitted with a pivoting ball hitch, allowing for independent movement between the trailer and your machine. Plus, it features a greaseable fitting for easy maintenance.

Tandem Axle System

The RR607 comes with a heavy-duty, tandem walking beam axle system that is equipped with ATV wheels and tires. This ensures that you can easily navigate your way through virtually any terrain.
