The Range Road RR608 stands out as a flexible and adaptable trailer suitable for a wide range of tasks. Whether you're cutting firewood in the forest, doing chores around the homestead, or working on the ranch, this trailer can be a very beneficial tool. Its standout feature is the large galvanized hydraulic dump bed, making it a great choice for heavy-duty jobs. The rear swinging tailgate makes it simple to spread loads, adding to its versatility. Additionally, with the quick and easily removable sides, you can effortlessly load and unload virtually any type of cargo.

### Heavy Duty Construction

The entire trailer: dump bed, frame, and chassis are galvanized to prevent corrosion. The powder-coated tongue mounted box houses the Hydraulic pump as well as functions as the battery box (battery included).

### Designed For Independent Functionality

The trailer tongue is fitted with a pivoting ball hitch, allowing for independent movement between the trailer and your machine. Plus, it features a greaseable fitting for easy maintenance.

### Tandem Axle System

The RR608 comes with a heavy-duty, tandem walking beam axle system that is equipped with ATV wheels and tires. This ensures that you can easily navigate your way through virtually any terrain.
